

Statement of Disclosure

I am not a veterinarian, therefore I do not diagnose medical issues, offer medical advice, prescribe drugs, or perform surgery.

Nor am I an animal trainer, although through my understanding of the behavioral qualities of many animals I may make suggestions with regard to training.

As an animal communicator, my primary role is as an intuitive consultant, incorporating, telepathy (see website for explanation) with energetic modalities to provide individualized assistance for companion animals along with their humans.

Also, I am a certified shamanic practitioner and can provide energetic (soul) healing for your animal (see website for more information on Shamanism.)

My services are an adjunct not a substitute, to good veterinary care, proper nutrition, training, and exercise for your animal friend.

Expect to receive gentle, compassionate care based on knowledge, experience and heartfelt intent to be of service.
